*Quick Computing Topics (QCT) is an electronic Newsletter published by Computer and Telecommunication Services and Media Services/User Support for CSUB Faculty, Staff, and Students. Past issues will be archived on Computer and Telecommunication Services and Media Services/User Support homepages. Please address any comments or suggestions to: Computer Services secretary at extension 2115.*

## **FirstClass Upgrade July 9, 1999 - July 10, 1999**

**Computer and Telecommunication Services will be performing the first of a two step upgrade process to the FirstClass server during the weekend of July 9, 1999 through July 10, 1999. The upgrade will consist of moving the FirstClass email system to a new Dell 500mhz duo-processor server to prepare for the upgrading of the FirstClass software at the end of the summer. This process will be very time consuming and will require the FirstClass system to be down from Friday, July 9th at 5pm until Saturday, July 10 at noon. This upgrade will not require any changes to your FirstClass client software. The FirstClass server name will continue to be firstclass1.csubak.edu. If you have any questions, please contact the CTS office at ext 2115.**

**Banner will be down at 5:30pm on Friday, July 9, to be backed up prior to the campus power shutdown on Friday night. It will be available for campus access and Orientation processing when power is restored on Saturday morning of July 10.**

**As soon as Orientation completes on Saturday afternoon, Banner will be down at 3pm for a critical upgrade to bring Banner Student Module up to date for the campus to continue with Y2K testing. Banner will be available for access by Monday morning of July 12.**

**Thank you for your patience!**
