

Antelope Valley Roadmap

Sample program for AVC students who want to graduate with a degree in Liberal Studies in four years.

The following program of study may be used as a guide for students interested in completing the Liberal Studies major and obtaining a Multiple Subjects teaching credential within four years. The following program of study may be used as a guide for students interested in simultaneously completing the Liberal Studies major and the Multiple Subjects Credential in four years, while attending Antelope Valley College for the first two years of their education. **Students need to be aware that this outline assumes that they do not need any remedial coursework before enrolling in English 110 and Math 221, have completed their foreign language requirement, and that their Concentration in Liberal Studies includes one course double-counted in the major.** If required, additional courses must be completed during the summers, or as an overload.
