

# Active Learning Workshop

Friday, January 28 3:30 to 5pm

At the

Faculty Teaching and Learning Center  
(Refreshments provided)

*Active learning engages students directly in the course activities.*

*“Learning is not a spectator sport. Students do not learn much just by sitting in class listening to teachers, memorizing prepackaged assignments, and spitting out answers. They must talk about what they are learning, write about it, relate it to past experiences, apply it to their daily lives. They must make what they learn part of themselves.”*

Chickering & Gamson, 1987

- **How can you increase higher-order thinking (analysis, synthesis, evaluation)?**
- **How do you keep students actively engaged during class sessions?**
- **What can you do to help students retain course material?**
- **How can you know if students are “getting” what you are teaching?**

**By the end of the workshop, you should be able to:**

1. Understand the rationale for using active learning in your classes.
2. Experience and be able to use selected active learning techniques.
3. Know what resources are available for additional information about active learning.
4. Develop a plan for implementing active learning in your classes.

**Registration required. Call the TLC (x2084) or email [TLC@csub.edu](mailto:TLC@csub.edu)**
