CSUB will be transitioning from quarters to semesters in fall 2016. If you began at CSUB prior to the Q2S, you will be considered a “transitional student.” It is VERY important that you meet with your Academic Advisor regularly to ensure you are prepared for and up-to-date on these changes.

Below are just a few frequently asked questions regarding the Q2S:

**Q: Will the courses I took under the quarter system count toward my degree when I graduate on the semester calendar?**

A. Absolutely. Continue to work with your academic advisor during this transition. One tool that will be helpful is the Quarter-to-Semester Course Conversion Guide, as it displays the Q2S equivalent courses.

**Q: Why are five classes per semester considered the new average (for full-time status)?**

A. To ensure timely graduation, it is very important that you take five courses each semester. Over the longer span of a semester you will have more time in which to read, write and learn, and you may have more flexibility in trying to catch up if you fall behind.

For more FAQ’s regarding the Q2S, visit: www.csub.edu/q2s
