XVII ADJOURNMENT
Meeting adjourned at 4:47pm.

Noted and Recorded by: Mary Barnes, ASC
Approved by: Derek Stotler, President
First and foremost, I would like to congratulate those of you who have been elected to be part of the 2015-2016 ASI Board. I want you to close your eyes, and picture the number of students who voted for you, now subtract one. Yes, we all know you voted for yourself, but what I want you to understand is that it’s no longer about you. Whenever you have to make a decision that will affect our students, close your eyes and remember that number. The first day of your term, close your eyes and remember that number. Those students believe in you, and they trust you. Make sure that if you made promises, such as a Food Pantry, a concert, representation at the state and federal level, and so on, make sure you keep those promises. Now think about those students who didn’t vote for you, or simply didn’t vote; yeah over 8,000 students. It’s no longer about what you want; it’s what is best and what will be best for our students. This isn’t simply a resume builder; this won’t guarantee you a job out there. Don’t expect to be appreciated, don’t expect for everyone to accept your decisions, and don’t expect to be liked. Every decision you make and everything you do will now be under a microscope. Another word of advice that I want to give you is this, you are a student leader emphasis on STUDENT. So if you miss a meeting here and there because of school, or you’re late to a few meetings because you sprinted from your class, or hey you can’t make office hours for a week because you have to take an important exam, remember that you are a student! You wouldn’t be here if you let your grades slip. Finally, I want to say that you won’t think about ASI during your every waking moment, and that is okay. Learn to balance your responsibilities, and ask for help. You are not alone, and don’t think that you can do it alone. Respect each other, you won’t always agree, but learn to be more open about what other people think or believe. It takes collaboration and cooperation to make a great team. I wish you all the best, and I hope you all continue to work hard and continue to support all the progress we have made in the past years. We have made great strides, and I hope that if one day I decide to sit in the audience, that I will see “students working for students.”

Thank you.
