Program Description
The Bachelor of Arts with a major in Theatre offers comprehensive training in performance, technical theatre and design, and theatre studies, all intended to prepare students for careers in professional theatre, teaching, or related fields. The requirements are flexible enough to allow each student to specialize or generalize as appropriate, and the production program offers each student extensive opportunities to participate as an actor or crew member in a variety of situations.

Any undergraduate accepted into the University may undertake this major. Continuance is contingent upon satisfactory progress in all coursework, both in and out of the major.

Most opportunities are open to all CSUB students regardless of their declared major. In addition to courses that will satisfy General Education or Liberal Studies requirements, the department offers the following curricula: BA in Theatre Arts, Minor in Theatre, Minor in Theatre Technology, and a Minor in Theatre for Youth.

Mission Statement
The goal of the Theatre Department at California State University, Bakersfield is to develop the skills, craft, knowledge and imagination of its students within a liberal arts context. This broad preparation at the undergraduate level develops a foundation for any theatre specialization. Our aim is to help our students acquire the skills necessary to succeed in their future pursuits. The curriculum includes courses in performance, design/technology, dramatic literature/theatre history, Theatre for Youth, directing and playwriting. An integral part of a student's training is regular participation in our season of theatrical productions. As on-campus performances are open to the public and touring performances reach thousands of local school children each year, enhancing the quality of life of the community is also a very important part of the Theatre Department’s mission.

Program Goals
1. To prepare students for career opportunities in theatre and related fields.
2. To develop skills in cooperation, communication, and collaboration through the theatrical process.
3. To develop critical thinking and writing skills through the study of theatre’s contribution to civilization.
4. To prepare students to work independently in a disciplined and productive manner.
