Graduate Courses

**BEHS 5200 Quantitative Methods in the Behavioral Sciences (3)**
An examination of the major techniques used for quantitative analysis in contemporary behavioral science, including basic tests of significance, measures of association, bivariate and multiple regression, factor analysis, analysis of variance, nonparametric statistics, and computer techniques of data compilation and analysis. Prerequisite: a college-level course in statistics. Carries credit in Anthropology, Economics, Political Science, Psychology, or Sociology.

**BEHS 5210 Advanced Research Design and Analysis (3)**
An advanced examination of the methodologies and strategies of behavioral science research, focusing on research designs (including experimental, quasi-experimental, survey and field studies), sampling procedures, and data analysis and interpretation. Carries credit in either Anthropology, Psychology or Sociology.
