  - X
- **Monthly salary, exempt, monthly payroll cycle**
  - X
- **Works less than full-time**
  - X
- **May be eligible for benefits**
  - X

¹ Teaching must be performed on a CSU campus. Teaching does not apply to ISAs working with pre-schoolers or K-12 populations

² Grading involves primarily an evaluative assessment, not clerical and routine tasks associated with grading (grading is not running Scantrons, using a master key, or entering grades)

³ Tutoring involves primarily providing guidance to a student regarding a specific course requirement or course content. The dissemination of general information unrelated to specific course content is not considered tutoring. Tutoring is NOT peer advising, orientation, counseling, or other similar mentoring activities.

These classifications apply to individuals who are CSU employees, regardless of funding source. An individual is an employee of the CSU if he/she is paid on the CSU payroll via the State Controller’s Office and CSU W2 is issued for the individual. If an student worker is paid as a Foundation employee, he/she is not classified in Unit 11.
