

Example of how financial aid eligibility is determined.

Student Budget - Off Campus (apartment)		\$12,976
Expected family contribution (EFC)	\$1,500	
PTA Scholarship	<u>500</u>	
Total Resources	\$2,000	<u><2,000></u>
Financial Aid Eligibility (Budget minus total resources)		\$10,976

The student's financial aid eligibility is calculated by taking the Standard Student Budget minus the expected family contribution (EFC) and any additional financial resources/scholarships. This illustrates how financial aid eligibility is determined for a single, dependent student who lives off-campus in an apartment.
