

### ***Chancellor White Visits White House***

**Chancellor Timothy White** joined other higher education and non-profit leaders from across the country at the White House last month in response to President and First Lady Obama's call to action to expand college opportunity for low-income students. Higher education leaders made more than 100 commitments to take action in four key areas to increase college opportunity: 1) matching more low-income students with the college that is right for them and ensuring that more students graduate; 2) increasing the pool of students preparing for college through early interventions; 3) leveling the playing field in college advising and SAT/ACT test preparation; and 4) strengthening remediation programs to help academically underprepared students matriculate and graduate. The White House report on Increasing College Opportunity for Low-Income Students is viewable [here](#) and the list of Commitments to Action on College Opportunity is available [here](#).

### *Academic Senate Approves General Education Program Redesign*

On February 13, 2014 the Academic Senate approved the

outline for a new General Education program. This new program provides a liberal arts education that builds a vibrant learning community connecting teachers and students across the university. It promotes student success by structuring educational activities that purposefully contextualize, reinforce, and integrate knowledge. Students have opportunities throughout the curriculum to reflect upon and apply what they learn through a variety of high-impact practices.

Students will engage in broad, interdisciplinary themes woven throughout lower-division and upper-division GE coursework as well as co-curricular and extracurricular activities. They are encouraged to engage in integrative and interdisciplinary learning, and robust collaborative partnerships. Students are encouraged to gain a depth of knowledge by pursuing a thematic minor throughout GE coursework. Themes also provide a common focus of conversation among faculty, who will gather in Faculty Interest Groups, which will also assist in deepening relationships among the schools in the university.

The new General Education Program also focuses on teaching and reinforcing the foundational skills (oral and written communication, critical thinking and quantitative reasoning) that are core to a

liberal arts education. There also is a series of guidepost courses in the first, junior, and senior years that provide touchstones throughout the students' university experience which aid in synthesizing learning within the broad topics of acculturation, skill development and self-reflection. A pilot study will evaluate the use of e-portfolios to help students reflect on and synthesize their learning.

### ***Student Research Competition***

Student research is a high-touch, high-impact educational practice that actively engages students in systematic inquiry, investigation, empirical observation, and research to answer critical questions. The Office of Grants, Research, and Sponsored Programs' (GRASP) annual Student Research Competition will be held March 14, 2014 in the Dezember Leadership Development Center. Winners will represent CSUB in the Statewide Student Research Competition on May 2<sup>nd</sup> and 3<sup>rd</sup> at CSU East Bay. Please visit this [link](#) for competition guidelines.

### ***CSUB Website Wins Awards***

Our new website design has brought home the gold. We received a gold MarCom Award for Website Element/Home Page, as well as an honorable mention in the Educational Institution category; a silver W3 Award for Website Features – Visual Appeal; and a silver Davey Award for Websites – School/Universities.

The MarCom Awards is an international creative competition for any individual or company involved in the concept, writing and

design of print, visual, audio and web materials and programs. The competition is perhaps the largest of its kind in the world, with over 6,500 entries in the 2013 contest.

The W3 Awards honors creative excellence on the web, and recognizes the creative and marketing professionals behind award-winning sites, videos and marketing programs. The W3 is sanctioned and judged by the International Academy of the Visual Arts, an invitation-only body consisting of top-tier professionals from a "Who's Who" of acclaimed media, interactive, advertising, and marketing firms.

The Davey Awards is the first major awards competition specifically for smaller firms. The Davey is sanctioned and judged by the International Academy of the Visual Arts.

Please give a round of applause to **Colleen Dillaway, Tammara Sherman, Don David**, the Articulate Solutions team, and the 200+ campus web liaisons who worked collaboratively on a successful redesign and launch of our website. Well done.
