School of Social Sciences and Education

School Information:

The School of Social Sciences and Education currently houses eight departments. Visit the web page at <http://www.csub.edu/sse/> for additional information about the School's programs and the area.

Department Information:

With over 600 majors, the Department of Psychology has the capacity to prepare students well for the research and applied sides of psychology, but it is small enough for students to know their professors personally as caring teachers and mentors. Undergraduate students in Psychology complete an applied experience that helps them explore career options within the field. For more details, go to our website: <http://www.csub.edu/psychology>.
