INTERESTED IN EDUCATIONAL LEADERSHIP?

Find out more about the Educational Administration (Preliminary Administrative Services Credential and M.A.) program at CSU Bakersfield and CSUB Antelope Valley

At CSUB's EDAD program, we see our primary mission as cultivating supportive learning partnerships with EDAD candidates as they work within their schools to identify and address inequities of student achievement and well-being. The EDAD faculty brings real-world experience from a variety of educational leadership positions along with new insights gained from recent research and theory that we apply in:

- Teaching EDAD candidates the principles of visionary, instructional, and ethical leadership.
- Coaching EDAD candidates in the essential leadership skills of analyzing data, leading communities of practice, and advancing teacher instructional skills.
- Developing candidates' capacity to manage their school learning environments and influence their policy contexts.
- Preparing EDAD candidates to engage their school communities.
