The following comments are brief descriptions of a select number of proposals representative of the proposed activities and operations of the Organization. There are highlights of proposals submitted by each school with support from the Sponsored Programs Development Office in Grants, Research & Sponsored Programs (GRASP).

Enrollment management proposed a \$2.6 million grant renewal project to the Department of Education under the Talent Search funding announcement. The goal of the Talent Search Program is to increase the number of youths from disadvantaged backgrounds who complete high school and enroll in postsecondary education. The project will serve three high schools in the Kern High School District, one high school and one middle school in the McFarland Unified School District, and one middle school in the Bakersfield City School District. Low-income and potential first-generation students will be targeted for the project, which also includes homeless, foster care, re-entry, and veteran populations.

Note 1 - Organization and Summary of Significant Accounting Policies

Nature of Activities

California State University, Bakersfield, Auxiliary for Sponsored Programs Administration (Organization) was incorporated in the State of California on August 28, 2009. The Organization was formed and operated solely for the benefit of California State University, Bakersfield as a non-profit auxiliary organization. The Organization is responsible for the accomplishment of certain University objectives that require financial support not provided by the State. These activities occur in all aspects of University life, including the development and administration of sponsored grants and contracts for faculty and staff research and educational projects.

Basis of Presentation

The accompanying basic financial statements have been prepared using the economic resources measurement focus and the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Income Taxes

The Organization is a qualified nonprofit organization that is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and Section 23701(d) of the California Revenue and Taxation Code. However, the Organization remains subject to taxes on any net income which is derived from a trade or business regularly carried on and unrelated to its exempt purpose.

The Organization follows accounting standards generally accepted in the United States of America related to the recognition of uncertain tax positions. The Organization recognizes accrued interest and penalties associated with uncertain tax positions as part of the statement of revenues, expenses, and changes in net position, when applicable. Management has determined that the Organization has no uncertain tax positions at June 30, 2021 and therefore no amounts have been accrued.

Accounts Receivable

Accounts receivable arise in the normal course of operations. It is the policy of management to review the outstanding accounts receivable at year end, as well as the bad debt write-offs experienced in the past, and establish an allowance for doubtful accounts for uncollectible amounts. A provision for doubtful accounts has not been established as management considers all accounts to be collectible based upon a favorable history over a substantial period of time.

Capital Assets

The Organization capitalizes all expenditures for capital assets in excess of \$5,000. Equipment and improvements are recorded at cost or at estimated fair value at date of gift if donated. Expenditures for maintenance and repairs are charged against operations. Depreciation is provided on a straight-line basis over the estimated useful lives of the assets of three to ten years.

Deferred Revenue

Deferred revenue represents grant payments received in advance of grant earnings.

Coronavirus

In December 2019, a novel strain of coronavirus (COVID-19) was reported in Wuhan, China. On March 11, 2020, the World Health Organization declared COVID-19 a global pandemic and recommended containment and mitigation measures worldwide. The COVID-19 outbreak in the United States has caused business disruption through mandated and voluntary closings of businesses and shelter-in-place orders, including California, where the Organization is located.

Management has initiated several changes to the operations of the programs and administrative functions in order to protect the health of staff and students and to mitigate the financial effects of the virus and its resultant economic slowdown. The Organization will continue to evaluate, and if appropriate, adopt other measures in the future required for the ongoing safety of staff and students. The extent of the impact of COVID-19 on the Organization's operational and financial performance will depend on certain developments, including the duration and spread of the outbreak and its impacts on the Organization's customers, employees, and vendors, all of which at present, cannot be determined.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

In planning and performing our audit of compliance, we considered California State University, Bakersfield, Auxiliary for Sponsored Programs Administration's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of California State University, Bakersfield, Auxiliary for Sponsored Programs Administration's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Grant Guidance. Accordingly, this report is not suitable for any other purpose.
