Immunization Requirements/Recommendations Effective Fall 2020

CSU Students are REQUIRED to obtain the following vaccines and undergo screening/risk assessment for Tuberculosis:	
<u>Required Immunizations & Screenings</u>	<u>Required Dosage & Screening Information</u>
Measles, Mumps, and Rubella (MMR)	Two (2) doses with first dose on or after 1 st birthday; OR positive titer (laboratory evidence of immunity to disease)
Varicella (Chickenpox)	Two (2) doses with first dose on or after 1 st birthday; OR positive titer. History of contracting the disease does not meet compliance.
Tetanus, Diphtheria and Pertussis (Tdap)	One (1) dose after age 7
Meningococcal Conjugate (Serogroups A, C, Y, & W-135)	One (1) dose on or after age 16; required of all students age 21 or younger
Hepatitis B (Hep B)	Students age 18 and younger (CA Health & Safety Code, sec. 120390.5); For students age 19 and older, a positive titer is accepted, but NOT required.
Screening/Risk Assessment: Tuberculosis (TB)	All incoming students must complete a Tuberculosis risk questionnaire. Incoming students who are at higher risk* for TB infection, as indicated by answer “yes” to any of the screening questions, must undergo either skin or blood testing for TB infection within 1 year of CSU entry. *Higher risk include travel to or living in South and Central America, Africa, Asia, Eater Europe, and the Middle East; prior positive TV test; or exposure to someone with active TB disease.

Please visit our website for additional *recommended* immunizations and a detailed description of the diseases listed above.

ONLY WAIVERS BASED ON MEDICAL CONSIDERATION WILL BE ACCEPTED.

The required CSUB Student Health Services Medical Exemption Form can be found on our website:
