

MATHEMATICS DEPARTMENT SEMINAR

Grants, Math Programs, and Undergraduate Research: Opportunities and Strategies for CSUB Math Faculty

Dr. Brian Ryals

California State University Bakersfield

2:00 PM TO 3:00 PM

Wednesday, September 16, 2026

Science III, Room 212

Abstract

In this seminar, we will have an open and interactive discussion about pursuing external grants, mathematics programs, and undergraduate research opportunities. I will begin by sharing my experiences identifying and applying for the AMS-Simons Enhancement Grant and the LATTICE summer program, including what has been accomplished through these activities and what is planned for the future. I will also highlight other funding and program opportunities that may be particularly relevant to CSUB math faculty. I will also summarize some recent undergraduate projects and offer suggestions on how to both identify potential projects and involve students in them.
