

CALIFORNIA STATE UNIVERSITY, BAKERSFIELD
ACADEMIC SENATE

**ELEVATION OF THE MA CONCENTRATIONS IN EDUCATION
RES 151612**

AAC

RESOLVED: that the Academic Senate recommends

the elevation of the Concentration in Special Education and that the name of the degree program be Master of Arts in Special Education;

the elevation of the Concentration in Education and that the name of the degree program be Master of Arts in Education; and

the retention of the Master of Arts in Educational Administration degree program.

RESOLVED: that all above changes be implemented for fall semester 2016.

RATIONALE: All three programs have been offered under a single degree program but by different faculty groups. Recently the Chancellors Office developed a policy that a degree program will contain a single set of core courses, in other words, one core program per degree.

This directive affected two programs under the Master of Science in Administration degree title that were separated last academic year and the three programs in Education addressed above. The elevation of the above programs now will bring CSUB into compliance.

All three programs were converted in the Q2S process last year and are unchanged.

Approved by the Academic Senate on March 10, 2016
Sent to the President for approval on March 18, 2016
Approved by the President on April 5, 2016
