

PROGRAMS OF STUDY

Following are sample programs of study for full-time, part-time, and advanced standing students. These are examples and the Department reserves the right to change the schedule if needed. Students should work with their advisors to assure proper sequencing of courses and timely completion of the program. The Department offers courses that allow full-time students to complete the program in two years, and part-time students in three years. The courses in the part-time program are provided as a hybrid format, which includes online teaching and face-to-face instruction.

Full-time Program of Study (for students starting in 2019)
