

CPR CERTIFICATION

CSU Bakersfield is continually monitoring the impact that COVID-19 is having on our teacher candidates. As a result, online CPR certification will be accepted to allow candidates to apply for their Preliminary Teaching Credential.

Verification of Cardiopulmonary Resuscitation (CPR) training that meets the standards set by the American Red Cross and the American Heart Association for Infant, Child and Adult is required prior to recommendation of a Preliminary Credential.

You must provide verification of completion by submitting a copy of your signed CPR card or certificate.

Online CPR training that meets this requirement:
