Program Overview

The specialization in educational administration is available for post-baccalaureate teachers, counselors, and other educators who have an interest in administering programs in elementary or secondary public schools.

CSU Bakersfield and CSU Bakersfield—Antelope Valley offer a cohort model. Most candidates for the Certificate of Eligibility (the first administrative credential) also take ten additional units in educational research and the culminating activity to earn the master of arts degree. Once earned, the Certificate of Eligibility lasts indefinitely until the candidate obtains an administrative position, and then is converted, without further coursework, to the Preliminary Administrative Services Credential, which lasts five years. During those five years, the candidate must obtain the Professional Clear Administrative Services Credential.

Administrative credentials in California authorize service as a superintendent, associate superintendent, deputy superintendent, principal, assistant principal, curriculum coordinator, or any equivalent or intermediate level administrative position.
