## **Turning Off the Focused Inbox**

The Focused Inbox is a new feature with Outlook Mobile. When using the Focused Inbox, you will not see all your email items. To view the other items, you will need to switch to the Other view. However, you can turn the Focused Inbox off in the Settings.

1. To begin, open the <b>Outlook</b> app	Outlook
2. Click the Gear to open the Settings	Inbox       All Accounts       Initial State         FOCUSED       OTHER       FILTERS         CD       Chris Diniz       7:51 AM         Your assistance is needed to test a ne       Image: Comparison of the state implemented a Proof of the state impleme
