Course Description:

Introduction to the principles and types of public speaking. Experience in the development, presentation, & critical analysis of speeches to inform, persuade, & entertain.

Area A. Communication in the English Language:

This course satisfies your general education requirement for the designated Area A. The objectives below are designed to address the approved CSUB Area A goals:

Required General Education Goals for Area A credit:

1. Organize and evaluate ideas for oral presentations.
2. Communicate through public speaking.
3. Listen and interact effectively.

Student Objectives:

By the end of this course, you should be able to:

1. Understand and recall essential concepts in public communication.
2. Compose and deliver extemporaneous public presentations on socially significant and intellectually challenging topics, while utilizing core concepts from class.
3. Competently create, organize, and support ideas in public presentations.
4. Develop the ability to analyze audience response.
5. Effectively assess and evaluate written and spoken forms of public presentations.
6. Efficiently listen to and critically evaluate others' messages.

Academic Integrity:

Students are responsible for understanding and adhering to University policies regarding academic honesty, as specified in the current CSUB Catalog and Schedule of Classes. Cheating in any form, or plagiarizing any part or parts of oral or written work, is automatic grounds for receiving a failing grade on the assignment and you will have to repeat the assignment for no credit. In addition, a report will be filed with the Dean of Students for further possible action (including expulsion from the University). Cheating in any form, or plagiarizing any part or parts of oral or written work, is bad. Don't do it! If you are uncertain about what constitutes cheating or plagiarism: ask!

Special Needs:

If you have special needs (i.e. you may need material in Braille or exams taken orally) or you have a disability that may affect your participation in class, please see me as soon as possible so I can accommodate your needs. Services for students with disabilities is located in SA 140 or you can reach them at (661) 654-3360. If a class assignment conflicts with a personal religious observance please notify me early in the semester so I can negotiate an alternative activity.

Attendance:

This class focuses on public speaking and it is therefore necessary that the public (the class) is here to speak to. I do take roll and if you are absent I deduct from your final course grade.

Here is the attendance policy for this class:

1	= no deduction	4	= 6% "
2	= 2% from final course	5	= 8% "
3	= 4% "	6 or more	= automatic failing course grade

Do not be late. Any time you are more than 5 minutes late to class you will be considered tardy. Being tardy twice will result in one unexcused absence. If you are late you must appear within the first $\frac{3}{4}$ of the class to receive any points for that day. If you miss the first 2 class sessions you forfeit your seat in the course.

Excused Absences:

Absences due to illness may be excused with proper written documentation; this means bring me a dated receipt or note from your Dr/ campus health center. Any personal crisis such as the loss of loved one will only be excused if you provide a written notice such as an obituary. If something is wrong please email or call no matter the hour, but do not just disappear. If your absence is excused no percentage will be taken from your overall grade but it is your job to provide me with written record in a timely manner. If you have more than 6 absences, excused or otherwise you will automatically fail the course.

Missed Speeches and Assignments:

If you are not able to be in class for the day you are scheduled to speak for any reason, then you will have to make arrangements ahead of time (at least one class period BEFORE the scheduled speaking date) with another student who is willing to switch speaking days with you. This is your responsibility, not mine. If you do miss a speech you will not be able to make the speech up. You must come to my office and perform a passing speech (meaning you will be graded and must get at least a D) on your own time, to pass the course; but you will receive zero points towards your final grade for this "mandatory make-up". Do NOT miss your speech day or you will likely fail the course.

Late Assignment Submissions:

A letter grade will be deducted from your assignment for each DAY it is late. Late work should be submitted through Blackboard and work will not be accepted more than 48 hours after the initial deadline.

Additional responsibilities:

Keep a copy of everything you turn both a hard copy and digital file. Things happen. If my house burns down and your paper goes up with it, this will guarantee that you can get me another copy.

You must have reliable internet access and email to be successful in this course. If you need feedback on an assignments submitted online or over email it must be in Microsoft Word format or Open Office. File names should not include symbols or spaces.

Class Materials:

All course handouts, grading sheets and quizzes will be available in Blackboard only. Notification of posting and all due dates will be given in class. It is your responsibility to print out all assignments by the required due date, even if you are absent from class on the day an announcement is made. It is recommended that you consult Blackboard regularly and stay on track in learning modules.

SPEECHES**1-pnt Research Speech:**

The goal of this 4-6 minutes speech is to share one point of research with the class. Prepare a three-part introduction that: gains attention, presents one statement of fact (not a statement of value or policy), and motivates the audience to listen. Use an extended factual illustration to support the one-point assertion. An extended factual illustration is a detailed, true story. Use at least three specific instances that prove the factual illustration is not an isolated case. These specific instances are true stories that are not fully developed. Include two statistics and one expert testimony as well as an analogy. This speech should demonstrate that you can use the five most persuasive forms of evidence to establish a significant social problem.

Persuasive Speech:

The goal of this 6-8 minute speech is to persuade an audience. You must provide a tangible (not ideological) solution to a controversial problem. The goal of this speech is to practice using persuasion in a non-threatening environment. You are expected to provide at least 5 different sources during the course of your speech. This speech can reflect your views but you must present research to substantiate them. You must cite your sources not only on your outline but also during the course of your speech. Speaking notes will be permitted in the form of two 3.5 note cards. A copy of your full-sentence outline and bibliography must be provided to instructor before speech.

Informative Speech:

The goal of this 6-8 minute speech is to inform the audience, not to persuade us. Tell us about your topic, not your views on it. You are expected to have at least five different sources and one visual aid. Audio-visual aids are not allowed and this means no PowerPoint or video clips. To receive credit for this speech, you must turn in a full-sentence outline and your bibliography before you speak. You must cite your sources not only on your outline but also during the course of your speech. If you choose to use speaking notes they will be permitted in the form of two 3.5 note cards but you will face a 10% grade deduction for their use.

Job Interview Speech:

The goal of this 5-7 minute speech is to learn interviewing techniques. In this speech you will identify your post-graduation career objective and prepare to interview for that job. You will be required to answer the five most frequently asked questions in your practice interview. Each speech day guest critics will join the class. You will not know who the guest may be on your speech date and guests may include CSUB professors, staff, local community business owners or even the CSUB University President. Every student must wear business attire and no notes will be permitted. If you fail to contribute or attend on either of the 2 interview days you will forfeit 5% of your overall final course grade.

Final Award Speech:

On our last day of regular classes CCB will give you the name of a fellow classmate. You must prepare an award speech for your peer and bring an award to present on the final day. Your speech should be 30-90 seconds and celebrate your classmate. An award must accompany your speech. Please go to the dollar store find one item you feel is an adequate trophy to present with your speech or you can create a gift with materials that cost less than a dollar. No outline is required and no notes are permitted.

The reflective journal aspect of this course is the repository of how you are achieving the course learning objectives. Here you should refer to the textbook and think critically about the approaches you will take to each question. In order to receive credit for any entry you must both write an answer to the initial question and remark to one other group member posts. This is a college course and sentence structure, grammar and use of class concepts will be taken into account when grading your answers.
